

Rudi Campo

Dr. Rudi Campo started his career in the department of Gynaecological microsurgery and reproductive medicine at the University of Dusseldorf, Germany. In 1989 he joined the Leuven Institute for Fertility and Embryology (LIFE) group in Belgium as a clinical director, taking responsibility for the IVF lab and the ambulatory reproductive surgical unit.

He is also the founder of the Life Expert Centre a novel concept of precision medicine in which he has integrated the Digital Hysteroscopic Clinic.

Internationally, Rudi Campo is one of the most recognized hysteroscopic surgeons with major experience in hysteroscopic uterine, reconstructive surgery and hysteroscopic trans endometrial myometrial exploration. His current research interests are in the field of reproductive assisted technologies, endoscopic surgery, training and education.

Today he is an executive board member in the European Board & College Obstetrics and Gynaecology (EBCOG), he has been the president of the European Society for Gynaecological Endoscopy (ESGE) and is currently member of the board of directors.

Furthermore, Dr. Campo is one of the founders of The European Academy of Gynaecological Surgery and the MIS (minimal invasive surgery) Academy, which aims to encourage the exchange of clinical experience, scientific thoughts and investigation among gynaecological endoscopists and practitioners, and to establish an apolitical body for scientific research and standardization.
